)  
Amendment of the )  
FM Table of Allotments )  
Mount Enterprise, TX )

To: The Secretary, Federal Communications Commission  
Attn.: Media Bureau

**PETITION FOR RULEMAKING**

JER Licenses, LLC ("JER"), pursuant to Section 1.401, 47 C.F.R. § 1.401, files this Petition for Rulemaking proposing the substitution of Channel 279A for vacant Channel 231A at Mount Enterprise, Texas. The substitution of channels at Mount Enterprise will allow JER to change its community of license for its Channel 232C3, Grapeland, Texas, to Bullard, Texas. JER has filed its Form 301 Application with the requisite fee seeking this minor change in facilities.

Good cause exists for grant of this requested rulemaking. As more particularly set forth in the attached Technical Statement, the proposed substitution of Channel 279A for vacant Channel 231A at Mount Enterprise, Texas, can be made in full compliance with the Commission's spacing rules. This in turn will allow JER to provide a first service to Bullard, Texas - a community 1.2 times larger than Grapeland, Texas, and a community that has had a 44% increase in population from 2000 to 2006 compared to Grapeland's 3% decrease in population. It will also allow JER to increase its service area for Channel 232C3 from 61,005 people to 171,760, a 182% increase.

No. of Copies rec'd 044  
List ABCDE  
MB 08-25

WHEREFORE, it is respectfully requested that this Petition for Rulemaking be granted.

Respectfully submitted,

**JER LICENSES, LLC**

TECHNICAL STATEMENT  
PETITION FOR RULEMAKING  
JER LICENSES, LLC  
MOUNT ENTERPRISE, TEXAS  
MAY 2008

This Technical Statement is prepared on behalf of JER Licenses, LLC ("JER"), Licensee of 232C2 Grapeland, Texas. It is in support of a Petition for Rulemaking being filed by JER proposing to substitute channel 279A for the vacant channel 231A at Mount Enterprise, Texas. This direct substitution of channels at Mount Enterprise will allow JER to change the city of license for 232C3 Grapeland, Texas, to the new first service community of Bullard, Texas on channel 232A.

A concurrently filed minor change application for 232C3 Grapeland, Texas, proposing the city of license change to Bullard, Texas is being filed with this Petition for Rulemaking.

Figure 1 is a channel spacing study which shows that channel 279A can be directly substituted for the current channel 231A allotment at Mount Enterprise, Texas, at the coordinates of N. 31°-58'-15", W. 94°-41'-01". These coordinates are 5.9 km from Mount Enterprise, N. 40°-16'-20", W. 103°-39'-40", and are well within the 16.2 kilometers allowed for allotment of a class A channel to a community. Figure 1 also shows the proposed 70 dBμ predicted (F50,50) contour from a full class A facility (6 kW ERP at 100 meters HAAT) operating at the proposed allotment point. The contour shows more than adequate 70 dBμ coverage over the entire community of Mount Enterprise.

The proposed allotment point for 279A at Mount Enterprise is fully spaced to all of the pertinent stations under 73.207 of the commission's rules. There is an apparent short spacing to a reserved allotment for 279C at La Port, Texas. This is actually La

---

Porte, Texas and was an allotment created in docket RM-10035 dated Oct. 31, 2001. This allotment ultimately became the licensed facility KHJK La Porte, Texas. Therefore, the , allotment created in docket RM-10035 should now be removed from the database. KHJK La Porte, Texas is fully spaced to the proposed allotment point as shown in Figure 1.

JER respectfully requests the substitution of the vacant allotment at Mount Enterprise, Texas from 279A to channel 231A.

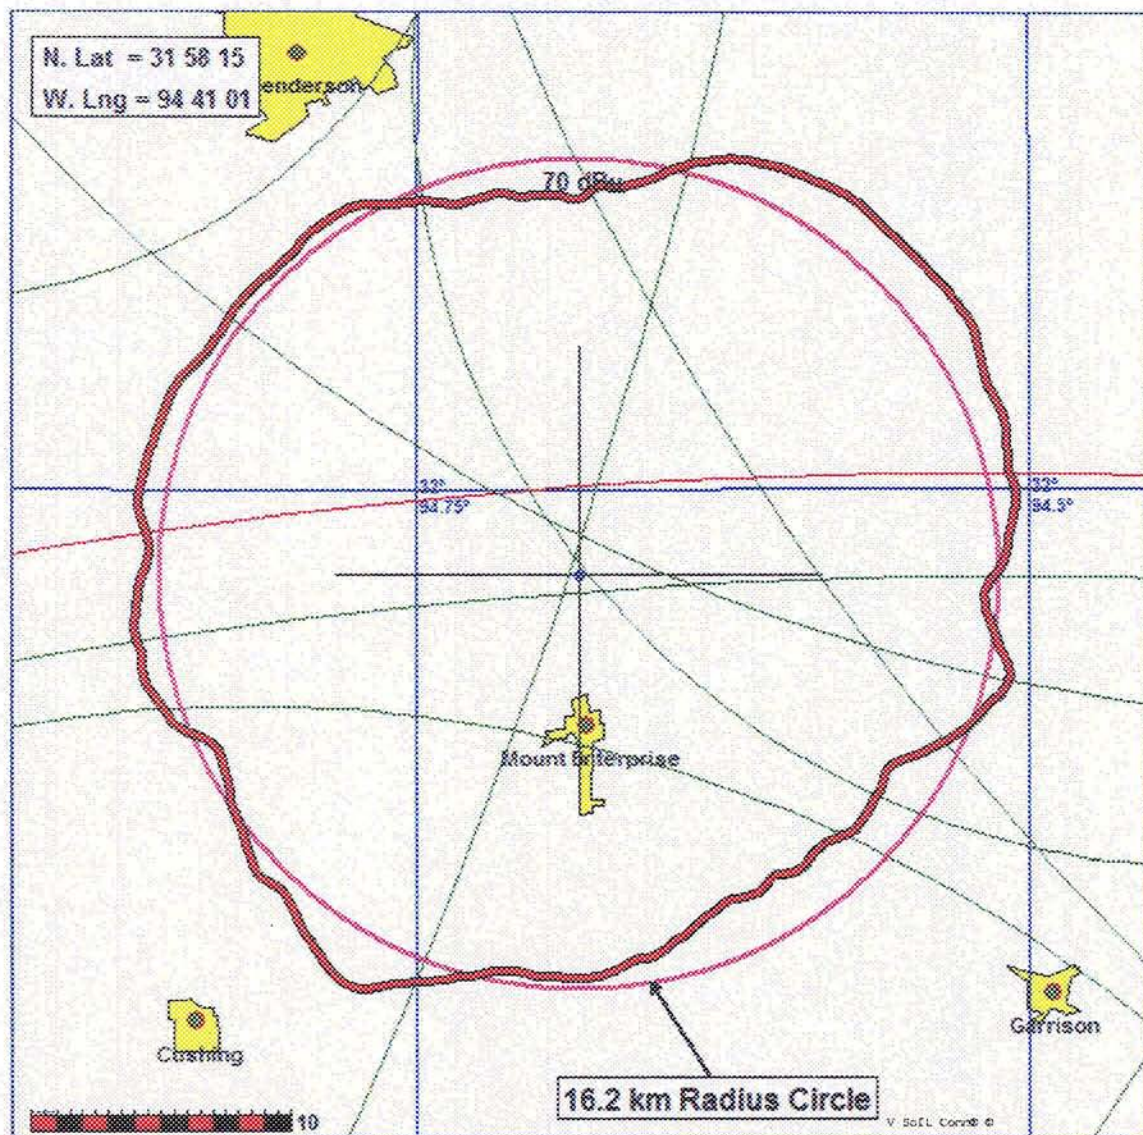

Respectfully Submitted,

A handwritten signature in cursive script that reads "Kevin J. Youngers".
